Page 1/1 Rev. 06_02.06.2014 Part-No. 9012329

Berulub PAL 1

White, adhesive and noise damping multipurpose paste

Examples of Application

- Telescopic mobile crane booms
- To lubricate and seal stop cocks, labyrinth seals, stuffing boxes and gland packings such as in appliances used in large kitchens
- To lubricate threaded spindles in thermostat valves

Materials

- Non-ferrous metal/non-ferrous metal
- Metal/elastomer

Properties

- Suitable for low temperatures
- Prevents stick-slip
- Extended relubrication intervals
- Very good adhesion
- Non-dripping and non-melting

Characteristic data

- Service temperature: -40 °C to +150 °C
- Appearance: white
- NLGI grade 1*

- Especially used for damping of structure borne sound as well as for frictional vibrations
- Food and beverage industry
- Plastic/plastic
- Metal/plastic
- Resistant to hot and cold water, water vapours, lactic, formic, acetic or fruit acids as well as watery-alkline and acid disinfecting or cleaning agents
- Contains PTFE

Thickener Polytetrafluoroethylene Unworked penetration 310 - 340 **DIN ISO 2137** 1/10 mm immeas. °C IP 396 Drop point Base oil Ester Kin. viscosity at 40 °C approx. 2200 DIN 51562 mm²/s Kin. viscosity at 100 °C mm²/s approx. 180 DIN 51562

Instructions for use

Prior to serial production compatibility tests are recommended

Also available: Berulub Palfluid L 56 (containing solvent) 9012232 Berulub PAL 3 (NLGI grade 3) 5500309, Basis of Berulub PAL 3 = Berulub Palfluid Spray (500 ml spray can) 5305609

* The indication refers to the unworked penetration

The above data correspond to latest technology, modifications reserved. This information is intended as a guide and does not necessarily represent a marketing specification. In individual cases tests have to be carried out by the consumer. Further data upon request.

Lubrication Solutions for Industry

BECHEM develops, produces and sells high-performance lubricants and process media all over the world. The product range covers the fields of special lubricants, lubricants for industry and lubricants for metal working and forming technology. All product formulations are based on latest tribological knowledge.
