CraneWorks is proud to present this Terex Crossover 4500L mounted to a 2017 International WorkStar 7500 SFA 6X4

Terex Crossover 4500L Features:

- Max capacity of 45 tons
- Max boom length of 129'
- Max tip height of 136'
- Includes optional 32'-49' jib
- Max sheave height of 155' with jib
- Operator cab with heat & AC
- Electro-proportional joystick controls
- Greer element rated capacity indicator
- Comfort Seat with torsion suspension, 6-way adjustment, heat controls & adjustable lumbar support
- X-pattern outrigger system lowers the center of gravity & eliminates the need for front stabilizer jack
- Smooth hydraulics at any engine RPM
- Able to perform challenging lifts at all boom radii

International WorkStar 7500 Features:

- Cummins ISL9 380HP diesel engine
- Fuller FRO-14210C 10-speed manual transmission with overdrive & air shift
- 20K front axle, 46K tandem rear axles
- Diff locks on both driving axles
- Hendrickson PRIMAAX EX air suspension
- Michelin XZY-3 425/65R22.5 front tires & Michelin XDE M/S 11R22.5 rear tires on polished aluminum wheels
- Frame reinforced with heat-treated alloy steel frame (120K PSI yield)
- Premium interior trim with sound insulation
- Leather-wrapped steering wheel with tilt
- Commercial chassis is more comfortable & easier to service than purpose-built chassis
