Please call 214-614-7626 x 301 for Quotes on Professional Services

FAST-TRACK SERVICES

Make sure you get the most value for your equipment sooner with **Crane Network Fast-Track**.

1

ENTER FAST-TRACK

Create your equipment listing on Crane Network. You can enter the FastTrack system immediately or at any time during your advertising package.

2

EVALUATION

Crane Network coordinates a visit to the equipment. It is evaluated from top to bottom and new information, pictures, and videos are collected.

3

DETAILED LISTING

The equipment receives an expanded, more detailed listing with evaluations data. The unit is rated and priced. (Negotiated with seller - but a real street value is determined)

4

MARKETING

The unit is submitted to inside/outside sales channels that actively market the equipment via phone, email, and direct contact with an established network of buyers. We are able to establish pricing, interest, and generate real offers for the unit.

5

RE-EVALUATION

If no offers are received or the street perception does not match the pricing - another negotiation is had to either reduce the price or submit to auction.

6

LIQUIDATION

There are multiple liquidation methods within the auction business where it could be reserve or no reserve with each having positive and negative results. Sellers in the reserve methods still have a method of right of refusal.

Our goal at Crane Network is to assist you in the sale of your equipment from start to finish. We want to actively work with you and provide disposition methods that generate offers to our customers looking for a more detail oriented route of advertising.

CONCIERGE SERVICES

If you've ever dreaded buying or selling heavy equipment, you're not alone.

That's why our new Crane Network Concierge services were developed to help people buy and sell equipment without the hassle.

Crane Network Concierge services will represent you in all aspects of your heavy equipment needs. We specialize in research, market trends, inspections, appraisals, negotiations, rentals, interest rates or lease rates, the bank fees, transportation, and once we get all that done, you have a trusted partner.....

Our concierge team learns about your needs and preferences then we do the legwork. That includes searching inventories, evaluating market availability and trends, haggling and negotiating and delivering turnkey solutions to your equipment needs. Crane Network Concierge is a highly-specialized service that we have continued to develop in support of buyer and sellers.

Our team has facilitated or negotiated the transactions of more than a **billion dollars of assets** in the service and equipment industry. Using our services will provide you with a team that will act on and provide immediate response from one of our qualified staff. Our goal is to provide you with a direct answers and solutions to your needs.

Results and solutions are what we strive to achieve in the sale, rental or purchase of any equipment or part.

At Crane Network, we consider each aspect of the process and work with you to find the best course of action. **Consider us your equipment concierge!** We understand that if you are buying, selling or renting equipment, the purpose is to increase revenue or decrease costs for you and your business and save time. Avoid adding to costs or frustration by trying to do this yourself by using Crane Network Concierge services.

Focus on what you do best, and allow us to do the heavy lifting, buying, selling, or renting equipment. It's what we do best.

ABOUT US

Since 1998, CraneNetwork.com has been the #1 resource for buying and selling cranes, heavy equipment, parts and attachments.
